

Deko Wood 2 mm

Aesthetics and functionality combined

2 mm single-wall chimney in matte black painted steel with smooth finish with no visible joints for visible wood stove connection

Benefits

Cutable

The duct can be cut, so long as the male end of the piece is always conserved. To cut use a fine grain cutting disk and then apply Dinak heat-resistant paint to the cut surface

Finish

Also available in grey finish. Check with Dinak for availability

Aesthetics

The quality of the finish of the Deko Wood 2 mm range makes it possible to maintain the aesthetics of an exposed connection and to integrate it perfectly
